SEVERE WEATHER!  
DIG PIG

### EXPERIENCE

**14/07 - today**   **Game**  
Dig Pig

Coming soon! In collaboration with Norwegian artist **Johan Reisang** of **Burning Ink**.

**14/04 - today**   **App**  
Severe Weather!

App warning for severe weather in collaboration with freelance developer **Soner Dastan**.

**11/09 - today**   **App**  
Rain Alarm

Software development ranging from the initial idea to design up to implementation of an Android based weather application, that is able to warn users of approaching precipitation at their current location

**01/10 - 04/10**   **Freelancer**  
Company name is confidential  
(Stockholm, Sweden)

Software development in the area of Device Management

**10/09 - 11/09**   **Freelancer**  
Company name is confidential  
(Stockholm, Sweden)

Software development in the area of Device Management

**08/09 - 09/09**   **Project**  
MKaraoke

Software development ranging from the initial idea to design up to implementation

of an Android based karaoke  
implementation

#### **06/09 - 10/09 Freelancer**

**Witur Technologies, SL**  
(Berlin, Germany / Barcelona, Spain)

Software development ranging from design  
up to implementation of an Android based  
application in the field of tourism and travel

#### **01/09 - 05/09 Sabbatical**

#### **04/07 - 12/08 Principal Software Engineer**

**InnoPath Software, Inc.**  
(Berlin, Germany / Sunnyvale, CA, USA)

Advanced Technology Group:

- Software development ranging from the initial idea to design up to implementation of innovative product features and prototypes for the InnoPath iMDM Server
- Inventor in the scope of patent applications for new Device Management technologies
  - See Patentdocs web site for **Michael Diener, Berlin**
  - See Patentdocs web site for **Michael Diener, Sunnyvale**

Technical Marketing:

- Preparation and customisation of the InnoPath iMDM Servers for demos of brandnew product features

European Team:

- Technical expert Device Management

#### **01/06 - 07/06 Open Source Project**

Mobile Karaoke

Software development ranging from the  
initial idea to design up to implementation  
of a Java ME based karaoke implementation

#### **03/04 - 04/07 Development Lead Device Management**

**Synchronica Software GmbH / Synchronica plc**  
(Berlin, Germany / Royal Tunbridge Wells, UK)

- Responsible for the development of the Synchronica SyncML DM Servers featuring a SyncML based full-blown scripting language (Sydemas) and complete support for OMA DM 1.1.2,

- OMA DM 1.2, FUMO, OMA CP and OMA DM via OBEX
- Software development ranging from the initial idea to design up to implementation
- Regular participant at OMA TestFests (event of the OMA standardisation organisation)
- Training for pre-sales and customers

**01/04 - 03/04 Software Developer****ehotel AG**

(Berlin / Potsdam, Germany)

Web application development
