

# 'Dig Pig' Is Probably The Cutest Game Around, Now Available on Google Play

Dig Pig is a game about a pig that tries online dating.

Yup.

As soon as I read this short description I knew I'm gonna love this game. And indeed, a further investigation of Dig Pig revealed a super-cute and seriously hilarious game.

The game revolves around Pig. He's single and he's looking for love, but Tindeer, the online dating app that he's using, only gives him matches on the other side of the world. Pig has no choice, he has to dig his way through the Earth and get to his matches. But it's not all about digging – Pig has to avoid obstacles, aim for the specific point on the map and beat thirteen levels to make it to his match. Sadly, not all of his matches are gonna end up as love stories. But I guess that's the fun, isn't it? Just like in real life.

The game was developed by Michael Diener, and its story and art were created by Johan Reisang. I think they made a lovely job, combining humor and a fun, addictive gameplay.
